Information Interrogation: Evaluation Workshop

What is your research question?

What source are you evaluating? (Provide a citation)

How:
How did you access / acquire this resource? Reflect on your research process.

Who:
Who is responsible for this information and do they have the authority / credibility required for this topic?

What:
What specific information is included and does it address my research needs?
Where:
What format is the resource and how does that contribute to accuracy and reliability of the information included?

When:
When was the information produced and is it current enough to meet my research needs?

Why:
For what purpose was this information produced? Was it produced for a specific audience and is there evidence of bias?

Annotation:
Craft an evaluative annotation based on the major points of your interrogation of the source.
